

MyKris Market Update

MyKris Limited (MYK), the NZAX listed high speed internet access service provider gives the following update to ensure the market is fully informed.

MyKris Asia, a subsidiary of MyKris Ltd, has continued to grow its business. It has signed contracts with Hotel Pullman Kuala Lumpur and Putrajaya Marriott Hotel with combined contract value of RM 3 million (NZD 1.2 million) with tenure of three and five years respectively.

MyKris CEO, Mr. Chew Choo Soon said “As a High Speed Internet Access (HSIA) service provider, we are not only providing a high speed last mile internet broadband access but we also work very closely with our customers to customize and to maximize on their internet infrastructure. We also act as a turnkey consultation partner to our clients to ensure that the quality of the internet access is guaranteed. This product is called Managed Services. Both of the contracts engage MyKris as a one-stop HSIA service provider that includes the setting up of infrastructure on wired and wireless networks with official internet managed services plus broadband on demand (i-BOND) for both hotel events and functions.”

Mr. Chew Choo Soon said “We are pleased to have concluded these two contracts and we are working on a large number of additional sales opportunities and we will advise as these are concluded. The information disclosed in the Disclosure document at the time of listing is still relevant and will give investors a very good overview of the MyKris business.”
