MYKRIS (MYK) the NZAX listed Internet Service Provider (ISP) announces further market developments

MYKRIS Limited (MYK) was awarded its largest single contract for its High Speed Internet Managed Services (i-MAN), further underpinning its new strategy to become the pioneer in HYBRID internet solution provider - wired and wireless technology.

The company secured a RM5.2 million (NZD1.9 million) contract to deliver the internet and intranet services to Courts (Malaysia) Sdn. Bhd., one of the leading electrical products, IT products and furniture retailers in Singapore and Malaysia. The contract includes the WAN Network Management services for all its 74 nationwide branches throughout Malaysia.

Mykris has traditionally been very strong in the, hospitality sector, and has contracts with some of Malaysia's best known hotels.

This contract is significant as it is the first step into a new sector for Mykris.

Mr. Chew Choo Soon, Chief Executive Officer of MYKRIS Limited said, "The three year contract will further expand the Company's presence in Malaysia as the Company focuses its future on the Managed Internet Broadband Service sector.

We thank Courts (Malaysia) for providing us with this opportunity and we are pleased to be their IT partner supporting their business operation."

"As advised at the General Meeting last year, Mykris is focusing on developing its market share. We are expecting to be able to announce further progress before the end of the financial year." Said Mr Chew

Chew Choo Soon
Chief Executive Officer
