

## Mykris Limited ( MYK ) Announces Excellent Result and Maiden Dividend

MYK, the Malaysian Internet Service Provider which listed on NZAX in January of 2012, today announced its result for the six months ended 30 September 2012 and its maiden dividend.

The executive chairman, Mr Chew said "The Directors are very pleased to announce a net profit after tax of \$635,244 for the 6 months to 30 September 2012. Total revenue for the period is \$5,161,928.

Mr Chew said, "The figures are in line with the Directors expectations for this period and reflect the strong position that Mykris has been able to build in the South East Asian market.

This performance shows strong cash flows and gives the market an understanding of the future prospects for Mykris. The results to 31 March 2012 were distorted by the broken period of reporting (i.e. 3.3 months) plus the write-off of the costs of listing on the NZAX.

Mr Chew said, "The Directors have agreed to pay an interim dividend on 1 February 2013 with a record date of 18 January 2013.

This is an unusually long period, however this is due to the need to allow overseas shareholders the time to arrange banking details for the receipt of the dividends.

We would not expect this delay for future dividend payments as shareholders will have the details in place. Mykris has had approximately 150 new shareholders over the last 8 months.

Mr Chew said, "We are experiencing on going demand for our services and the directors and staff are committed to making the second six months at least as profitable as the first six months.
